

SAFETY AWARDS 2013

The North American Die Casting Association is pleased to recognize Corporate Members with operations which have a strong focus on their employee's safety and well being. NADCA's Safety Award Program was developed to honor Corporate Members that both exceed and meet the average U.S. national safety standards for all manufacturing in a given year. Companies that have maintained a safety record during 2013 with 0 lost days/transfers/restrictions are awarded with a "Perfect" award. Companies with records equal to, or less than 4.4%, the national average for all manufacturing, are recognized with an "Outstanding" award.

Perfect Awards
